PRESS RELEASE

SaniSure, Inc. is pleased to introduce SaniSure™ Bioreactor Accessory Kits

For Your.....

AND

Single use Bioreactors

Glass Bioreactors

The SaniSure Bioreactor Accessory Kits are pre-fabricated single use kits designed to reduce customer set up time and costs while improving consistency in the design and eliminating operator dependency.

The pre-fabricated kits minimize injuries associated with building/cutting in-house, improving safety. The flexibility of this product line allow customers the ability to custom configure kits with unique tubing sizes, lengths, formulations, clamps and other accessories.

The Accessory Kits are designed for single-use, meets USP Class VI, lot-traceable, packaged in a certified ISO Class 7 Clean Room, and provides quick turn around lead times on small or large volume lots. With the option to have these assemblies shipped pre-irradiated or not pre-irradiated; customers have the flexibility of implementing technology specific to their individual needs, eliminating cleaning validation.

Each of the components in the kits are easily identified and labeled. These components are available as individual lines or as complete kits.

Please contact us to see how the SaniSure Bioreactor Accessory Kits can benefit your business. If you would like to discuss in further detail, contact SaniSure, Inc at 1-877-777-3005; PO BOX 2360, Moorpark, CA 93021 or Jeff Chase, Sales & Marketing Manager at jchase@sanisure.com.

About SaniSure, Inc.

SaniSure, Inc. is a provider of single-use systems as well as a CGMP component manufacturer focusing on engineered solutions for the Biopharmaceutical and Biotech industries.....from concept to prototype to production. These single use systems are assembled in an ISO Class 7 (10,000) clean room. SaniSure, Inc.'s focus is to provide help in design, development and optimization of current processes, by customizing assemblies to help improve safety, reduce labor costs, improve production efficiency and overall production costs, thereby improving ease of implementation and speed to market. For further information, please contact Jeff Chase, Sales & Marketing Manager, at (317) 859 9878 or (317) 657 4194 or jchase@sanisure.com.
