Re: Supply Chain resilience during the Ukraine crisis

Dear SaniSure Customer:

In light of the evolving Ukraine crisis, we have conducted a risk assessment to identify potential risks of disruption to SaniSure's Operations, and therefore to deliveries to our customers.

We have determined to the best of our knowledge that the SaniSure Companies do not rely, directly or indirectly, on any critical supplier or service provider with operations and/or majority ownership in Ukraine, Belarus, or Russia.

We do not expect the crisis to negatively impact SaniSure's access to materials, components, supplies, outside processing (including sterilization), or sources of energy needed for the fabrication of the products for SaniSure customers.

Best regards,
